## How Booking Works — Smart, Synchronized, Seamless

**Step 1: The Artist Starts**  
Artists search for available studios based on date, time, and gear. They request to join a session or create a new one.

**Step 2: The Technician Joins**  
Technicians explore sessions that have an artist or available slots. They accept and request to join the same session.

**Step 3: The Studio Syncs**  
Once a studio, artist, and technician are all matched in the same time slot, the session is auto-confirmed or manually approved by the studio.
